1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gary McFarron on 10/23/03.

The application has been amended as follows:

-Non-elected claims 6-13 and 31-101 have been canceled.

2. The following is an examiner's statement of reasons for allowance:

In view of appeal brief filed 8/4/03, it would not have been obvious to a person of ordinary skill in the art at the time the invention was made to combine Van Rijn (U.S. Patent No. 5,753,014) and Meyering et al (U.S. Patent No. 6,264,044) or Ishii et al (U.S. Patent No. 5,275,725) references and arrive at the claimed monolithic polymeric filter membrane. Particularly, applicant's definition of "monolithic" is of critical importance wherein "monolithic" requires that there be "no discernible line of distinction between the filter and support layers" (see page 23, lines 17-19 of the specification and the cross-sectional views of the membrane in Figures 4 and 12g; see also pages 5-7 of the appeal brief). None of above cited references teaches or suggests applicant's defined and claimed "monolithic" filter membrane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
